## References

(The list of references for original article – not less than 5 sources, but no more than 20 which are more than a half over the last 5 years. Among sources there have to be not less than 1 foreign source from the leading indexes of citing: Web of Science: <http://ip-science.thomsonreuters.com/mjl/>; Scopus: <http://www.scimagojr.com/journalsearch.php>; - Russian scientific citing index: <http://elibrary.ru>)

The list of references for articles in English is placed in alphabetical order, first of all sources in a foreign language, further in Russian with use of a transliteration (the sample is given below). You can use the <http://translit.ru> link to obtain a transliterated list of references. If there is an English version of the name for Russian article, the transliteration does not apply. The bibliographic description contains the names of all authors. It is not recommended to refer to dissertations, as well as abstracts of dissertations. At the end of the bibliographic description, DOI articles are placed, if any.
